## Euro ECO Concentrate

### PRODUCT DESCRIPTION

Euro ECO Concentrate is a premium quality long-life coolant concentrate of the latest generation based on monoethylene glycol and glycerine. It contains no nitrates, amines, or phosphates and provides reliable protection for use in aluminum or iron engines. Euro ECO Concentrate provides superior corrosion and rust protection for water-cooled automobile engine cooling system components. It is a direct equivalent to VW/Audi G13 coolant and is backwards compatible with earlier G12++, G12+, and G12 Volkswagen formulations.

All European coolants come with an easy to use 4 liter bottle with an award-winning childproof cap design.

### ADVANTAGES/BENEFITS

- For use in both iron and aluminum engines
- Superior anti-corrosion properties allow longer life
- Protection against foaming and cavitation
- Matches OE coloration
- Produced and packaged in Germany
- The pro rata use of glycerine (which is made from renewable resources) reduces the green house gas emissions during production by approximately 11%

### Unit Size

4 liter

### PART NUMBER

252-1023 (US/Canada)

### OE REFERENCE #s

VW/Audi

G 013 A8J 1G

VW/Audi

G 013 A8J M1

Porsche

000 043 305 15

### In Compliance With The Following Specifications

ASTM D3306/D4985

SAE J1034

TL 774-J (G13)

### PRODUCT ATTRIBUTES

Appearance	Magenta
Density at 20°C (68°F)	1.13 g/cm <sup>3</sup>
Flash Point	>100°C (>212°F)
Boiling Point	>170°C (>338°F)
pH-Value at 20°C (68°F)	~8.4
Viscosity at 20°C (68°F)	25 mm <sup>2</sup> /s
Pour Point at 50/50 ratio	~ -36°C (-32.8°F)

252-1023 (US/Canada)
